Beaver Hunt

VOLUME THREE

HUSTLER has become famous for glorifying the human body.

Not only do we present in our pages the most attractive professional models anywhere, but we pioneered a new concept in erotic art, called *Beaver Hunt*. More than five years ago we announced to our readers that we would begin printing snapshots—nude, of course—of either themselves or their friends.

What began as a simple idea has become an eagerly awaited feature in each issue of HUSTLER Magazine, and one copied by almost all the other men's magazines. In fact, because of the thousands of photos we receive each month, we have produced this special edition, BEAVER HUNT VOLUME THREE. Our third annual collection boasts up to 300 everyday people showing all.

As you browse through this volume, you'll see why *Beaver Hunt* is so popular. These aren't fancy, highly paid models—they're the people next door or down the street. You might recognize someone you know (or someone you'd like to know!) among the wives, husbands, boyfriends and girlfriends pictured here.

The very best Beavers are considered for an extensive photo-spread in HUSTLER. The girl next door may wake up one morning to discover she's become a HUSTLER Honey.

So lean back, relax, and feast your eyes on this volume of naked delights. And keep your eyes peeled for future issues of HUSTLER to see if any of these Beavers someday make the leap from snapshot to centerfold.
