THE PUBLISHERS of this magazine believe that:

- sex is a precious, exciting part of life which every adult should be able to enjoy fully, both physically and emotionally.
- a frank discussion of sexual topics can lead to a deeper understanding of the sexual needs and problems which both men and women may face.
- the vast majority of mature men and women are interested in learning about the sexual experience of others, and should be allowed to learn more on this subject.
- sex between consenting adults, including lesbians and homosexuals, is a vital personal freedom.
- this freedom should extend to the right to discuss sexual matters frankly, both verbally and in print.

We try to carry out this philosophy in an adult, responsible way. We will not promote or condone sexual activities which are unlawful or could be harmful: such as underage sex, incest, bestiality, necrophilia — or any other form of sexuality which may cause severe pain or physical and psychological injury.

THE SECRETARY'S STORY

Last summer I found myself in need of a job — immediately! I had just split up with my husband, who had turned out to be all talk and no action, and there I was, living in a flat in London, on my own and with no visible means of support. Well, almost. Perhaps I could count on my gloriously ample breasts of which I have always been so proud. THEY are certainly visible enough, even to a blind man.

Perhaps I should explain at this point that I am a girl with very definite needs and desires — highly sexed, I

think you could call me.

Once I feel a man's hand on my babies, it just seems to drive me raving mad, sexually speaking, and I can't get enough of all he can give me in the way of fondling and squeezing and sucking — not to mention the delight imparted by the feel of a hot throbbing cock between them. And while all THAT's going on, my pussy starts wanting its share as well.

What I was thinking of when I married my wimp of a husband, I can no longer remember. I think it was all my fault, though — a sort of

reaction. Ever since my boobs really started sprouting at the age of fourteen, they have always made me the focus of male attention. They never seemed to notice my long slim legs, the trimness of the rest of my figure, my face that's far from plain, my long auburn hair. Certainly they never took any interest in what went on in my head. Life became one long topless petting session, and quite often the sods would come their lot before they'd even got round to the delights offered by my dewy little quim.

And then along came Norman, who didn't even seem to be aware of the fact that I had tits at all! It made such a pleasant change that one morning I woke up married to him. Pretty soon after that, I found out that he hadn't been looking for a wife at all, really — more of a substitute

mother and housekeeper, which didn't leave a girl with my drives with much option but to pack her suitcase and take off into the wide world.

So there I was, mistress of my own destiny again, and determined to stay that way — and also to take my pleasures, in future, wherever my boobs could find them for me. But first, I had to get a job.

I had dressed for my first job interview in two years with an eye to my application being successful one way or the other, if you follow my meaning. My secretarial skills might be a bit rusty, but if my 42" D-cups weren't worth more than fancy shorthand speeds, the male sex had changed a great deal while I'd been out of circulation.

I was shown into Mr Battersby's plushy inner office by an harassed temp who

confided that he was an easy-going, middle-aged public school type, and that he was interviewing two other girls about the job later that afternoon. Was he, indeed? He thought he was!

I made my entrance slowly, apparently from shyness, but in reality to allow maximum time for my careful preparations to take effect. It was a lovely sunny day, so I had opted for a white blouse with a deeply-scooped neckline, held together at what little front there was by tiny pearl buttons, and supported by a lacy half-bra that could barely cope with my bursting babies. Below the waist I was all business — well, almost. Straight black skirt, slit high to one side, black stockings, black garter-belt, black panties, black high-heeled slingback sandals. In fact, below the waist, I was entirely in black — and

what can be more business-like than that!

My long auburn hair cascading down my back and a careful makeup job to accentuate the green in my eyes completed a picture I was determined Battersby would find irresistible. One look at his face as I walked demurely towards him told me I had not been wasting my time. He was struggling to keep his smoothly-polished exterior impassive, but his eyes gave him away. They should have been on my face, but they were scurrying busily between the proud thrust of my tits and the pelvic wiggle that was part of the package.

"M . . . Miss Quigley," he managed to splutter at last, in a suitably plummy accent, "How nice to see you."

I just BET it was! "Justine — please call me Justine," I told him, parking myself

primly in the chair he indicated, and crossing my legs to give him the full benefit of the slit of my skirt and the flash of stocking-top I knew it provided.

We smiled across the desk at one another, and suddenly our roles were reversed, for now HE was the nervous one, not knowing what to do with his eyes, fidgeting with his hands, while I felt a surge of serene confidence that broadened my smile as I stuck out my credentials still further.

During the brief, simmering silence that followed, I made a lightning assessment of him. The temp had got him about right — mid-forties, balding, overweight, overdressed in a businessy sort of way, obviously successful, and no doubt full of self-confidence and self-importance. Except when faced with a pair like mine,

my gorgeous babies, which were even then reducing him to the status of a little boy with his nose pressed to the window of the sweet shop.

For the next ten minutes or so we went through the charade of an interview — he asked all the right questions, I gave all the right answers, and his eyes did more talking than either of us as I communicated with him in about six different kinds of body-language all at once.

Finally we got to the bit where he said his piece about how there were lots of other applicants to see, and I was supposed to say 'Thank you very much' and take off.

Only I didn't. I NEEDED that job — and I was going to get it! So I stood up and walked round the side of his desk, perched myself on the corner next to him, watching his mesmerised eyes go first to the expanse of nylon-clad

thigh about two feet from his suddenly-trembling hand, then to the jut of my breasts, poised above him now, and looking, no doubt, like the promised land...

"Don't you want to test my skills, Mr Battersby?" I asked sweetly, placing my hand on top of his on the desk and feeling a slight tremor go through him.

"I..." I had the poor guy snookered.

I leaned over towards him, his eyes scuttled down my cleavage, and I lifted his trembling hand with mine and placed it firmly on the slim round of my thigh.

"I NEED this job, Mr Battersby, really I do, and I PROMISE to do my VERY best to please, in every way. I have LOTS of skills..."

This was no time for subtlety — the rent man cometh — so I emphasised my message by kneading his

captured hand between mine and my thigh, sliding it up under my skirt and on to the top of my stocking as if unintentionally.

The little man was fascinated, terrified, hypnotised — and hooked!

"Let's test my skills," I said, sliding along the desk and parking myself in his lap. "Let me show you what a good secretary I can be."

And I took his head and laid it gently but firmly between my babies, feeling him tremble, and feeling, too, the warm gush of his breath between my breasts. It felt good, so good, to have a man's head nestling there after so long.

As I gently stroked his balding head, with fringe-benefits aforethought, he gave a funny little sobbing shudder — then something in him seemed to snap — the inhibitions of years, I sup-

pose.

And the hand on my leg took on a life of its own, the fingers pushing and probing greedily at my pubic curls through the thin curtain of my panties, while the other scrabbled frantically at the tiny buttons on the front of my blouse. His head was still burrowing deep into my cleavage — almost as if he hoped to find a hiding-place in there — and the whole atmosphere became charged with the frantic urgency that had seized him.

"Easy, now, easy..." I told him, trying to slow the pace a little, now I had him safely — hoping maybe for a little bit of pleasure for myself out of all this grabbing and slobbering, as well as a job.

But there was no holding him, no hope of getting through to him at all. He was gone to some far country whose borders lay between

my tits and my cunt, and I saw that I might just as well let him get on with it. There would be plenty of time to train him later.

He was obviously a classic case of the mixed-up, frustrated middle-aged man — I'd let his genie out of its box, and now he was so damned intent on his own pleasure that it never even crossed his mind that a girl might have her needs and desires, too. There would be nothing much for me in this little encounter — unless I provided it myself.

Despite his frenzy, Battersby had somehow succeeded in getting my blouse open to the waist and in undoing the centre-fastener of my bra, spilling my naked breasts into his greedy mouth. He was suckling away at my left nipple like a starving baby, and the hand between my legs had aban-

done its quest to go for the easier option of my other tit, kneading and pulling and generally, in the process, beginning to get me really going, too. My nipples had risen to his attention, beginning the sweet familiar ache that travelled down and through my body like an electric current and awoke the first delicate secretions deep within my long-dormant quim.

I tried to stand, to sort out our positions a bit, and as I did so his executive chair trundled back a little on its castors, and he made a little mewling, frightened noise, like a baby deprived of its dummy.

"There, there . . ." I soothed, leaning towards him, half standing and letting him recapture by dangling wonders.

Both my hands were on the back of his balding head,

cradling it in the place he wanted to be most in all the world, but he grabbed my left and dragged it insistently into his lap, pressing it against the pressure of his rising prick as it formed a grotesque tent at the fly of his trousers.

Have you ever tried unzipping a man with one hand when he's got a huge hard-on, and you are half-sprawled across him with him slobbering at your naked, throbbing tits? Not easy, girls, but I managed it — and then all I had to do was extricate his twitching, throbbing prick from its little nest in his underpants. And there it was, the first prick I'd seen for months, hot and hard and alive in my hand, and he groaned his pleasure at my touch even as I felt my first spasm of real arousal deep within my cunt.

Since that day I've seen

lots of pricks, many of them much bigger than this one that was jumping and jerking to my touch like a live thing, but just to feel one again set my juices running hot like liquid honey.

I tried to guide one of his hands back between my thighs, parting them as wide as I could to make it easier for him, feeling the old familiar churning spreading through my body in waves till my knees began to tremble, but he refused to relinquish his grip on my boobs — my babies had certainly made their mark on this one!

My need was as great as his now, and he was obviously carrying no passengers this trip. I would have to think, and act, for us both!

With a gasp of desire and frustration I let go of his hand, then felt the first sweet delightful thrust as I slipped

two fingers round the edge of my panties and plumbed my own oozing depths. Such bliss — my cunt gripped my fingers like a vice, my hugely-distended nipples throbbed as if they would burst, my whole body screamed its agony and ecstasy!

He was slobbering incoherent nonsense between my tits, mumbled, half-worded idiocies, and I could feel the dribble of cooling saliva running between my aching, leaping mounds. His prick in my hand squirmed and shuddered, and I was matching the up and down of my hand on him to the delirious delight of the in and out of my fingers in my own starved little honeypot.

And then suddenly his spunk gushed from him like lava from a volcano, the first convulsive spurt taking me by surprise, then an

unbelievable amount gouting from him and running stickily over my still frantically-moving hand, spasm on spasm on spasm. . .

He must have had nothing for months, the poor inhibited bastard, and now he was getting it — and I was getting the results hot and wet and sticky all over my hand and wrist.

I could feel him begin to go limp almost immediately, and knew I should stop, but couldn't, because I had

brought myself almost to release now. With three fingers buried deep within my quim, the groans and gasps I could here were coming from me as much as from him, and as I almost squatted in my urgency to pierce myself deeper I dragged him downwards with me, his head jammed between my throbbing mounds by my free arm. His groans began to change to those of pain as I continued to wank what was no longer

wankable, but STILL I couldn't stop, because I was coming, I was coming, I WAS COMING!!!

And then my quim exploded in the blessed light of release, and I felt the hot stream gush over my buried fingers and on to my sodden knickers, soaking the crotch still further and running down my bare thigh, and I squealed with delight, hugging his head to my glories, my babies who had made all this possible!

I got the job, naturally, and in due course managed to train him not to be so sexually selfish. We enjoyed a good relationship, at work and at play, for six months, but then he started talking about divorcing his wife and marrying me, and I wasn't going to make THAT mistake again. So I had to start looking around for another job. The interviewing techniques I learned with Mr Battersby came in very useful again, but that's another story.

Huge boobed Tracy Neave as you've never seen her is quickly followed by some sexy bouncing in the hayrack and then by a massive boobed beauty getting messy in the kitchen. Over a dozen of the country's biggest boobed birds on one tape.
