'You want to make me hot and happy in bed, guys? Start kissing my neck and, as you undress me, work your way down to my tits. Lick around the undersides, and into the cleavage before you go for the nipples. And be patient! I take a while to get warmed up, but once I am, look out, lover!'

'Hey, if you want to keep nibbling all the way down to my tender trap, that's fine with me—just as long as you don't forget to treat my pride and joys to TLC while we're making it. A man who gives me that...whew! He'll have me all over him like white on rice!'
