"I just can't seem to resist having them felt, because the feeling is so good. But shit—it always leads to me letting the guy fuck me, even when I have vowed to myself that this time I am not going to get plowed by some strange cock I'm really not interested in!

"I guess I simply can't say no to a guy, once he's gained a handful of my jugs, and has therefore turned me on past the point of any return!

**"I guess I can't say
no—once he's got his
hands on my jugs!"**

“I’ll tell you, it’s
 embarrassing
 waking up in the
 morning beneath
 some guy who’s
 sucking my tits
 and fucking into me
 —and I don’t even
 remember his name
 from the night
 before!
 “Well, at least I
 am spreading some
 pleasure around—
 and at the same
 time getting some
 for myself!”

Jug Climax

"We've heard about guys who love to titty fuck to climax, but I wonder how many of you groovy dudes out there reading this magazine know about chicks who also can come from having their tits stimulated. Well, I'm one of them and I feel blessed, because not only can I come from my pussy—but also my tits! I can come from top to bottom, in other words! "I can reach a dizzying climax not only when a guy is pinching and squeezing my jugs—but also when I do it to myself, which is when there is no guy around to do it for me..."

"Once he's got his hands on my jugs I'll do anything he says!"

"But the thing is, the stimulation of my jugs is what makes my pussy come. Of course, my pussy can climax without any stimulation to my jugs, too. The fascinating thing to guys as well as myself though, is the high degree of sensitivity my jugs have.

"Once a guy gets his hands on my jugs—I'm a goner. I'm going to do anything the guy wants me to—from sucking him off to letting him fuck me in the ass. Anything, so long as he returns the favor by playing with my tits."

"Ever since I started fucking in response to the horniness I began feeling when I hit my teens, I've played tit for tat with the guys I've dug. They can do whatever they want to do with my tits (and the rest of me) as long as I can do what I want with their tats. A tat is natrually a cock!

"Since most guys love feeling my tits, and I love feeling cocks, the whole thing works out to our mutual satisfaction—and climax!

tit·for·tat

**"My pussy has hair
trigger action just
like my tits..."**

"Not only am I favored with attractive jugs, but my pussy seems to have a hair trigger when it comes to coming. Like, I climax very easily, and in a whole series of multiple cums!"

"Is it any wonder that I have a reputation as a sex nut? I can have a guy making me come within two minutes from the time he's feeling my tits and stuffing his cock into my wet pussy. Two minutes!"

"Lots of chicks I know need ten minutes—and some of them never do get off!"

"I think having big tits has a lot to do with this, because it made me sexually aware at a very early age. It's part of the benefits that seem to go with tit territory!"

"Once I had my fifteenth birthday, I found I also had a nickname given to me by a bunch of the guys at school. They called me a big boob, but the way they meant it was a compliment, not a put down.

"They weren't referring to my personality, they referred to my jugs. They were big alright, and getting bigger. I was buying big-sized bras when my girlfriends were still trying on training bras!

"For awhile I felt self-conscious about my jugs—but then I began feeling proud of them. I especially dug the dates that they got for me—and since guys were really attracted to them, I'd let them feel them and suck on them.

BIG BOOB BABE

**"My sensitive boobs
led me to fucking at
a pretty early age!"**

"Of course, this would get me really turned on, so naturally I began fucking. All because of the entree my boobs provided.

"Being a big-boobed babe may have its disadvantages, but honestly, I sure can't think of a single one! They have led me out of virginity and into the fantastic world of sexual pleasure.

"Guys not only feel and suck them, they also want to fuck them. It's really a thrill to watch a cock lunging back and forth between them, then start to gush that lovely cum from between them—right up and into my face and mouth. To me it's really living—and I love it!"

TIT TONGUING

"Other than my pussy, my jugs are the most sensitive part of my body, especially the nipples. A guy can rub them and within seconds they get hard and erect. The way they stick out they look like two little hardons.

Three actually, if you were to count my clit, which also gets hard and erect—but that's another matter.

"I can actually be made to climax from merely stimulating my tits. When a tongue is slathering back and forth across them, swiping against my nipples, I get this real warm feeling flashing all through my body, extending from my tits to my pussy.

"I can feel my body getting warmer and warmer with this prickly feeling of excitement that finally seems to explode somewhere inside my cunt—and I am coming, my excitement seeming to burst inside my pussy—but triggered by the feeling I am getting from my jugs.

"I was called a big boob—and it was a compliment, not a put down!"

"Of course, my excitement by then is so great, I am either jacking the guy's cock with my hand, or maybe sucking it to a climax that I time to happen just as I myself am getting off."

"It's really fantastic having responsive jugs like mine, and since I have two of them, it is doubling my pleasure—and my fun!"
