KISSING LOVE

FORTY WAYS OF ADMINISTERING A KISS!

THOUSANDS OF WAYS TO AROUSE A FEMALE WITH YOUR TONGUE.

DEFINITION OF A KISS: A CARESS GIVEN WITH THE LIPS

'Continual licking and caressing of these parts of the body will arouse the female and cause a mountainous orgasm surpassing anything you have ever known'.

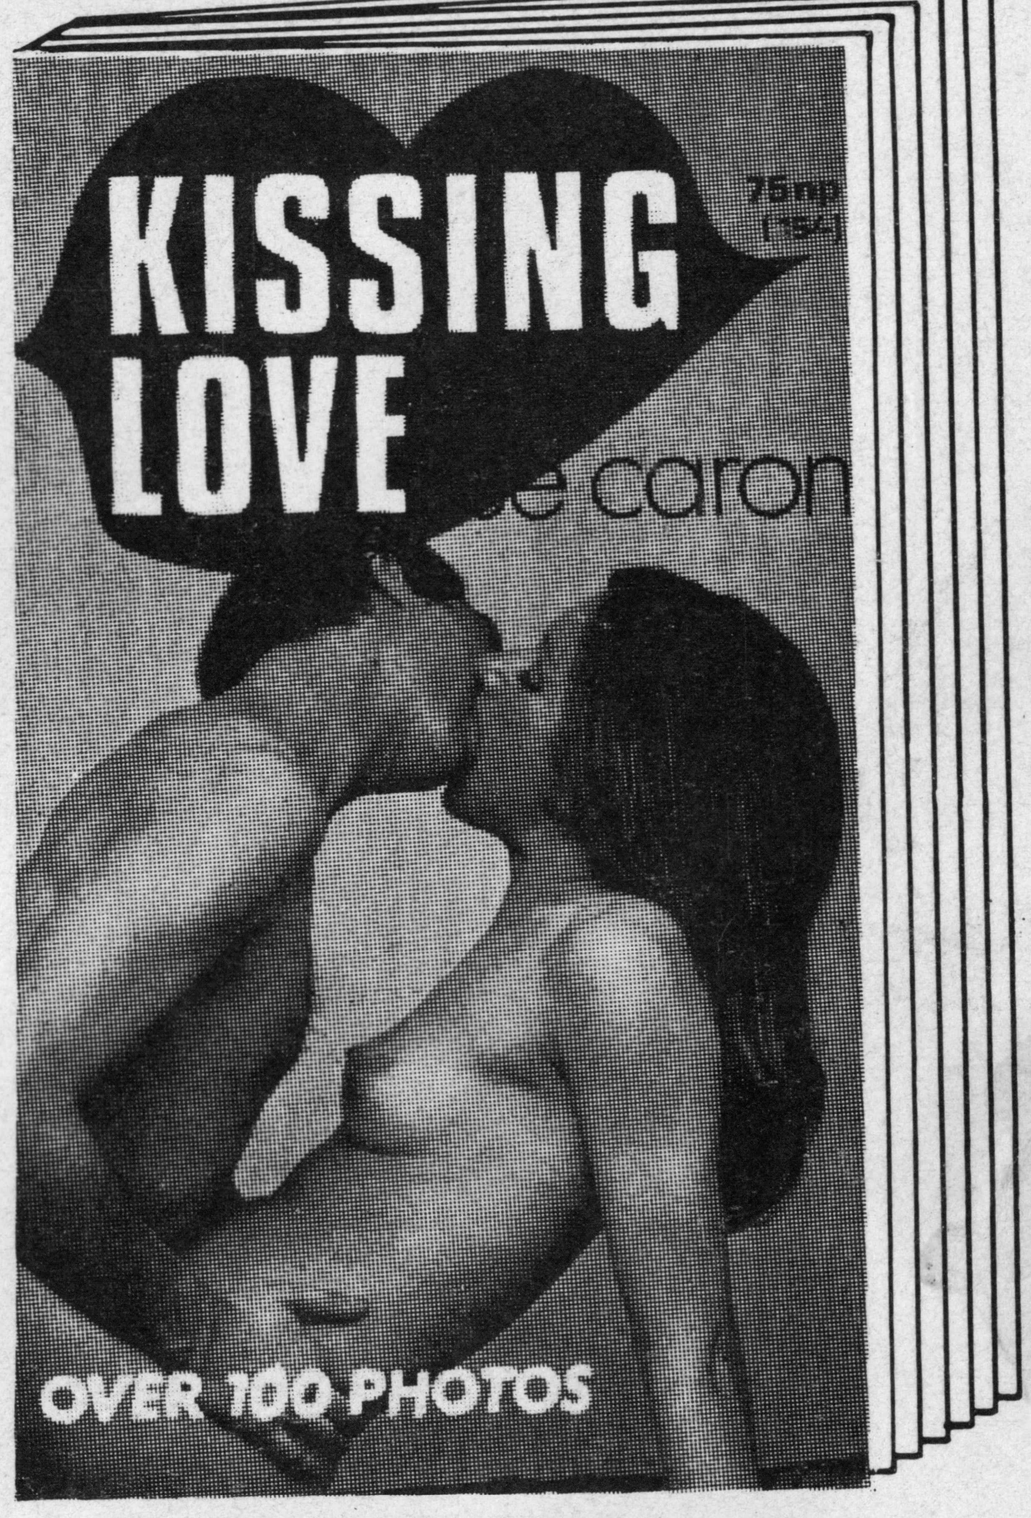

'Making love in frantic positions trying out experiments that you have read about. Excitement pierces the silence as love-noises gurgle in her throat.

You are the hunter tracking down your victim. Your stem crushes the silken web of the spider'.

'Lustfully you grasp her body in a series of uncontrollable movements. She is urging you on asking for more. Hands caress bosoms that are full, hands encircle nipples, hands and mouth clasping hold of her buttocks'.

Send your tongue on a journey through her hair, kiss and walk away'.

'Of course the thighs are highly sensitive to the warmth of your tongue'.

164 PAGES WITH OVER 100 SUPERB PHOTOGRAPHS UNRETOUCHED TRUE LIFE PHOTOGRAPHS THAT WILL INITIATE YOU INTO THE FABULOUS WORLD OF ORAL LOVE MAKING.
