Our March covergirl returns for her second smash layout.

87 LINDA (40-25-34)

She's the pride of Scotland for two big reasons.

MARIE: SHORT & SWEET

Here's a young, brand-new discovery by one of our most astute talent scouts, John Lomax. Her name is Marie and this is her first time before our cameras. Her publicity sheet tells us she's 18, only 5'2" tall and that her measurements are a "tittyful 41½-26-36. Marie didn't consider it a big deal to pose topless, but she refused to shed her panties. In Europe, particularly England where Marie is from, there's nothing wrong with flashing a bit of tit. Even the standard daily tabloids, hawked on the streets of London, usually feature a topless tootsie in every issue, and topless beaches are common in Europe.

We hope that Marie, like so many of our popular models who come from England, will soon lose her inhibitions and begin to share *all* of her sexy charms with us. Undoubtedly her youth has something to do with her being so shy. And she looks even younger than our information sheet tells us. Check out those virginal pink areolae and nipples for instance, and although the photographer has gone to some effort to give Marie sophisticated makeup and costuming, there's something very wholesome and innocent looking about her. We don't question that she's 18, but we also know that the legal age of consent in England is 16. If that's the case, Marie has a *long* career ahead of her in the modeling business, if she wants it. And at her age, it's even conceivable that her tits could even grow a bit larger! That's a thought that makes our hearts beat faster! As we said, we hope Marie will "bare it all" in the future, but for now, we're satisfied.

LOUISA: Rising Star

We knew, when we introduced Louisa Marie in January, that you were gonna like her...but we weren't prepared for *how much*! Suffice it to say, she's back again because your letters haven't stopped. Many readers compare her to Raquel Welch, but with a considerably larger pair of tits which, according to our data sheet, bust the tape at 40 inches. Louisa's Italian ancestry, she says, accounts for her dark, sexy look.

A solid 135 pounds, 5'7" tall and with 40-27-38 measurements, Louisa is in the "well-built" category, all over. She's perfectly proportioned by GENT standards, neither a chubbette nor one of our rare slender-but-stacked stars. Louisa says it took her some time to make up her mind whether to pursue a modeling and video career, and now that she's decided to go for it, she's being very careful about managing her career. She doesn't want to become over-exposed and says she turns down a lot more modeling assignments and film offers than she accepts at the present for just that reason.

In her first appearance, Louisa refused to strip down completely, saying that she was uncomfortable without at least a modicum of clothing, so she wore a sexy white corselette and stockings. Of course, many of you wrote and asked when she was going to show it "all" meaning, we assume, her tummy. Well, as you can see here, her flat stomach with a cute little navel is just as perfect as the rest of her. Also, since her last appearance, she has done a few very selective video spots including the recently released "Sex-A-Vision" where she appears in two sizzling scenes.

D-coppers are much in demand everywhere, but particularly in the film business where they are at a premium. Candy Samples, for instance, will only do cameo, non-hardcore roles (meaning *no insertion*) but gets star billing. So Louisa can afford to be particular and pick and choose what she will or won't do . . . and she does let both Herschel Savage and Joey Silvera tit-fuck her in two brief scenes in the video. Experience tells us that Louisa is superstar caliber and will be able to pretty much write her ticket for whatever she chooses to do, and one thing we hope she'll continue to do is model for GENT's photographers, regularly.

SPOTLIGHT ON KELI STEWART

After seven years of regular appearances in GENT, you'd think Keli might have been over-exposed, but that's far from the truth. Her features have been rather infrequent over the past couple of years...as a matter of fact she hasn't appeared for a year and a half. After having a baby, Keli took some time off for motherhood. And you readers deluged us with "where's Keli?" letters. Well, here's Keli again, as sexy and stacked as ever.

Many of our best models have been lured into the X-rated film and video business by the big bucks, the fame and the fun of it, but to our knowledge, Keli has stayed out of hardcore. She is so sexy all by herself that she doesn't have to boff some guy in front of a camera. And we're proud to have her as our featured video of the month. Don't miss gorgeous green-eyed Keli in this brand-new vid. See the GENT Video Library on page 96.

Possibly another reason Keli not only didn't do a great deal of modeling but avoided the X-film business, is because she also has another lucrative and time-consuming career, as a legitimate fashion model. She's done a lot of work as a "live" model, doing fashion shows at chic hotels, department stores, etc., and she's apparently able to keep her two careers carefully separated.

Photographers and other models who have worked with Keli, tell us that she's just as pleasant to work with as she is to look at. After the obvious fact that her 40-27-38 figure is picture perfect, it's Keli's green eyes that seem to knock our reader's socks off. In her last appearance, Keli had very short hair and it was auburn color, but we think this long, black hairdo is even sexier, if that's possible, than her previous appearances. Maybe it's motherhood that has made her even more sensuous. We're just sorry that some photographer didn't get the chance to shoot Keli while she was pregnant...or lactating.

PAULINE Shows All

Incredible Pauline, the latest of our superstar discoveries, has gotten more mail than any model in a long time, but many of you have asked the question, "When are we going to see Pauline's pussy?" Up until now, Pauline's posing has been very conservative and in spite of that, she has still created a storm of praise. Anyway, although Pauline was our covergirl just last April, and our centerfold in the November, 1985 issue, as soon as we saw these photos, we had to rush them into print. Yeah, guys, the barriers have fallen and here's Pauline the way you've been begging to see her.

In case you've missed Pauline (and we can't imagine that you could have), this beautiful, almost-new model has a matchless pair of 43 inch tits, a 26 inch waist and 35 inch hips. She had posed for a poster in England and was subsequently tracked down for GENT, although she ruled out anything but topless posing. She did, however make a video which has been selling like hotcakes (see page 96 for details) and now it looks as if she might be interested in pursuing fashion modeling. The only thing we can think of that would be better than more features would be having Pauline here in person...but that's a fantasy we're sure we share with a lot of our readers.

Photographer Donald Milne tells us that Pauline is Irish. She is just 20-years-old and moved to London from Dublin just a few months before her GENT debut last October. He says that Pauline was incredibly innocent and honestly didn't know why Milne or anyone would be fussing about taking photos of her. Of course, Pauline is more aware now that she's a precious commodity but she still thinks perhaps she'd rather be doing something else. She has suggested that she might want to try fashion modeling instead of nude work. Though she's now been photographed by a couple of other English photographers, apparently only Donald Milne was persuasive enough to shoot her bottomless.

FRANCINE: Bigger Than Ever

Little did Canadian chubby Francine and her husband realize, when they sent in some photos to our "Candidly Yours" column last September, that Francine would become a regular GENT model. We urged her husband to shoot a feature on her and that appeared last January. At that time, her weight was reported at 128 pounds (on a 44-28-37 figure) and we were a bit skeptical about it then. We're now told that that must have been a bit of wishful thinking because Francine hadn't been on a scale for a couple of months and didn't know she'd gained so much.

“Francine must have weighed close to 159 pounds last January,” her husband tells us, “and then she went on a real eating binge. I had her get on the scale just before I shot this feature and she was 169 pounds.” We’re told that Francine is now dieting and we’ll see the results soon.

HELGA: Mammary Matron

“**I** got my break in show business in the U.S. by doing imitations,” says Helga Sven, but when she began doing X-rated films and videos, it became apparent that Helga has a lot more to offer than being a mimic. She doesn’t imitate anyone when she throws all inhibitions to the wind and shows her male and female co-stars that a mature experienced woman can be a better fuck than novices half her age. There’s a lot of fire in this sexy German and for proof, check out her video in our film library.

"I've been in some form of show business all my life and modeling and doing X-rated vids is the same thing."

Helga's career began to take off at about the same time that Candy Samples (with whom "mature" Helga has been compared) began to curtail her video and modeling sessions. It took Helga quite awhile to get into porn considering the fact that she's been in show business since she was 15, in her native Frankfurt, Germany. While not as busty as Candy (and there are few models who are), Helga's a lot less bashful. She's willing to get into hardcore fucking, while Candy did little more than a bit of cocksucking, pussylicking, and, of course, her famous tit-fucking bits which Helga also does.

While we *never* ask a lady her age (and Helga didn't volunteer) she did give us her more vital statistics like, she's 5'5" tall, weighs 135 pounds and her measurements are 42-25-37. She came to the United States in 1971 and is now an American citizen, and until about two years ago, she worked in public relations with an occasional booking as a nightclub singer where she did a great imitation of the Gabor legend, Zsa Zsa. She was then offered a role in an R-rated film and that has led to more than 20 R- and X-rated movies where she has appeared with every big porn star both male and female. And Helga says she is just getting started. "I've always been a very sexual person and the idea of being able to have sex with all of these beautiful people and be paid for it, too, is fantastic," Helga says. But she still says that she's basically an old-fashioned romantic, at heart.

The Mountains of VIRGINIA

You may not instantly recognize Virginia. She was our covergirl and centerfold feature last March, but she was wearing a “mod” platinum wig—which our readers were split on whether they liked it or not—but they unanimously loved her incredible titties, all 43 inches of ‘em, her luscious body, and her sultry face. We told you at that time that you weren’t likely to see Virginia again, because she wasn’t really interested in a modeling career because she’s already a successful dress designer, and that she was seriously considering breast-reduction surgery. Well, we’re sure you’ll share our delight at this second appearance of Virginia, sans her wig and with those tits and the accompanying goodies looking even better than before, for sure.

Although Virginia swore last March was going to be her only modeling adventure, once she had a taste of the limelight, she decided to change her mind.

Once a girl gets a taste of the limelight, there is no saying what will happen. Obviously Virginia liked modeling a lot more than she thought she would because photographer Peter Marchant (who also shot her first layout) has photographed her several times since. And, we told you in March that we were rushing to have her video edited for release, and if you'll check out page 96, you'll see that we're as good as our promise. Now if Virginia will keep modeling, she'll make a lot of lovers of slender, gorgeous, humongously-hootered gals, very happy indeed. We're delighted she's back.

With everything else she has going for her, a pretty face and beautiful 43-27-36 figure, it's still her magnificent tits that we like best.

Virginia's twin towers of tit-flesh are truly outstanding. It's hard to understand how a pair of mounds of that size can stand so firmly and high on her chest without a sign of sag, nary a stretchmark, just two jutting peaks of pleasure. Virginia tells us that it probably has to do with the fact that her breasts are very firm and that they stay packed inside of a bra most of the time. Also, the fact that Virginia is only 20-years-old might have something to do with the fact that she's so firm and solid all over, but we're sure that the years will treat Virginia kindly.

LINDA: Pride of Scotland

How's this for a sight to make you blow the end out of your bagpipes? Her name is Linda, and this is her second GENT appearance. A bountiful Scottish beauty, Linda now lives in London and, we hope, has decided to make modeling a full time activity.

“I’m just not the kind of girl who can be content to sit home and wait for a likely husband to come along. I guess I was just born to be an adventuress.”

Linda says that the reason we don’t see too many Scottish models, although she says there are a lot of big-busted girls in her country, is that there aren’t many of them who leave home. “We’re pretty strictly brought up,” she says, “and our marriages are often arranged by our parents. That’s fine for most, but I’m a rebel and I knew there was more excitement someplace else. So, as soon as I got out of school, I headed for London.” And, Linda says, she hasn’t been disappointed. Only 19-years-old, 5’4” tall and weighing 118 pounds, Linda’s classic 40-inch knockers were noticed immediately by everyone, including one of our astute English talent scout/photographers.

“I swear,” Linda tells us, “that I didn’t know very much about naughty magazines at all, or anything about the girls who posed naked. I’m sure that such magazines are available somewhere in Scotland, but not in the village I lived in. Anyway, I *did* know that there was a lot of freedom and activity in London and so as soon as I could, I knew I was going to go there. Now here I am, and I’ve been through the ‘punk’ bit and the ‘rock’ groupie bit and now here I am a model.” But don’t get the idea that Linda is naive... “I hope your readers *enjoy* my pictures,” she told us with a wink.
