"I'm hornier than most
and sometimes it's easy
to talk me into just
about anything"

Did you have trouble accepting his?

He never gave me a chance. He had me on my hands and knees before I could spit and as soon as I felt his first inch slide in, I relaxed and enjoyed it. I do that sometimes, just surrender and let the man take my body. Some guys'll fuck your brains out!

Let's go back to your present job. Give us a sample conversation.

Okay, let's pretend your file card says you're an ass man. You'll call me and I'll begin by saying, in my sexiest voice, "Hi, I'm horny, are you? I hope so. Is your cock hard? Oh, I hope so. I've had so many fantasies since the last time we talked. Have you missed me? Oh, Honey, have you got your cock out? Is it

hard yet? You know I love it when you're good and hard and especially when your ball sack is full. Is it full, Dear? I hope so, I'm hungry and nothing satisfies me better than a big mouth full of cum. Oh, Honey, will you stroke it for me? Let's pretend I'm on my hands and knees in front of you. Is it hard enough yet? Ahhh, I can see it, yeah, oh it's so hard and swollen.

Honey, I can hardly get it in my mouth, it's so big. Don't shoot yet, Dear, not yet, let me get it deeper. I want to taste it all, enjoy it in my mouth for a while before you place it in my tight butt." How's that? Turn you on?

It certainly did. Tell us, Phyllis, what are your future goals?

Well, I'd love to become an actress, but I don't have the proper training. However, there is a good chance I'll land a job as a news reader for a local radio station. The job's sorta up in the air at the moment, but I'll know real soon.

"He said his fetish was whacking off—oddly enough, that's one of my amusements too!"

What about your love life?

It's funny, but I haven't found a man yet who doesn't fall in love with my boobs.

Does the devout attention bother you?

At times, yes. Some guys seem to forget about the

rest of my body and just concentrate on my tits. I have other sensitive parts besides my tits.

"He'd pull his big
pecker out into the
sunlight and stretch
it for all to see"

What's your most sensitive area?

The backs of my thighs and knees, definitely. I go nuts when a lover licks and sucks behind my knees.

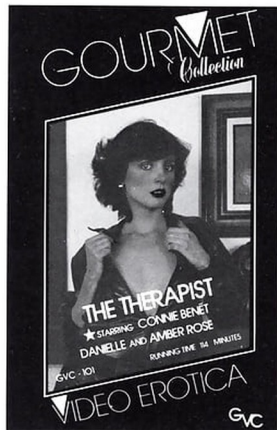

Do you enjoy head?

Absolutely! I can only think of one thing that's better than having a lover's face between my legs and that's having my face between his!

Knockers & Nipples 7:2

PRETTY PHYLLIS, soft, warm and cuddly, speaks with a natural deep voice that can almost melt your belt buckle! A runaway at the early age of sixteen, Phyllis quickly found her ample body to be her best asset. At that age, she says, her breasts were nearly full-grown and with the help of a little makeup and her sexy, sultry voice, she easily passed for an older girl and entered the vast world of entertainment.

Prissy Phyllis, richly endowed, in more ways than one, says she's a giving person who enjoys sharing her gifts with the beautiful people of the world.

KNOCKERS & NIPPLES (December 1981, January, February 1982) is published four times a year by American Art Enterprises, Inc., 12011 Sherman Rd., North Hollywood, CA 91605. Phyllis, your voice is incredibly sexy. Have you had training?

No, it's just natural. Some of my friends say it's one of my best features.

What's your second best feature?

Ummm, my mind.

What about your body?

That's an added plus.

Where's home, Phyllis?

Barstow. My parents still live there. I moved away when I was sixteen.

Where did you go?

To San Diego of all places. I moved in with my older sister. I was a telephone operator for seven months.

Is that what you do now?

Ummm, sorta. I'm in the entertainment business. I have to use my voice a lot.

Are you a singer?

No, actually, I work for a service company.

"Because of my deep, sultry voice, I meet most of my lovers over the phone"

"My second best feature is my mind, but my big boobs run a close third and fourth!"

"If my lovers aren't tit men when we meet, they quickly convert when mine are revealed"

Doing what?

Oh, I take calls from guys who want to get off. You know, like the ads you find in the underground papers telling lonely men to call a certain number and a girl will talk sexy to them over the phone. I get them off.

Do the callers ever say anything back?

Sure, they're free to say anything they want as long as they don't insult me. It's business and I'm serious about it and I fully expect them to take it just as seriously.

What have some of the men said to insult you?

Most of the time they just

call me a whore or a slut, but usually that's during their orgasm, so I know they're probably saying it to cum harder.

Do you think they mean it?

I've convinced myself it's because of their losing control of their mental faculties. They don't really mean it.

If they did, could you handle it?

I doubt it. I'm hornier than most, but I'm still human. Sometimes, if I'm in the wrong frame of mind, it's pretty easy to talk me into a depression. Not often, but sometimes. I usually roll with the punches, though.

**"I'm in the

I use my
mouth . . . uh,
my voice
a great deal"**

**Phyllis, could you give
the readers a sample of
your service work?**

You mean a make believe
conversation?

Sure, why not?

Okay. What's your fetish?

Do you have to know that?

Yeah, see, my callers are

all signed up and I have a file card on each man.

And the card lists the man's certain fetish or pleasure?

Yeah, even the size of his dick, hard and soft. If the card says the guy's really hung, I get extra hot and talk real sexy.

Do you like guys that are hung?

Oh, I don't even see the guy, just hear his voice, but I do enjoy a long dong. I've never had any trouble taking a long one, so yeah, I do like the big ones.

What's the biggest you've ever had?

I had two eleven inchers . . . in the same night and they belonged to two different

guys. A driller and a tool-pusher. That was last summer when I worked on a crewboat for an oil company.

Tell us about it.

Well, I was first assistant on this crewboat and we had to take the crew to the offshore rigs twice a

week. You know, every hitch. Well, this one rig had a driller on board who'd watch from the rig-floor as the relief crew was catching the basket. He knew I was watching and everytime, he'd pull that big pecker out into

the sunlight and stretch it for all to see. Hey, I always had my binoculars ready and when he whipped it out, I scoped out the massive head and shaft. Hell, even from ninety feet away I knew I'd have trouble sucking him off.

Did you? Was it too big?

Yeah, but that didn't bother him. His fetish is whacking off. Hell, he had me on my knees right in front of him and I could barely get the head of his cock between my lips, so I just tongued it while he beat-off in my mouth.

How long was it?

His cock? At least a good ten inches, maybe eleven. The toolpusher had twelve for sure!

Did you measure it?

I didn't have to, he had inch lines tattooed all over it. When it was soft I could see the seven inch mark, but when he got excited and his cock grew hard, watch out! That sucker was a full twelve inches and straining!
