She looks like the sexiest secretary you could dream of, but she's not. Carmen Rivera is one of Germany's hottest ladies: Dominatrix, host of an erotic TV show, porn actress and fetish model, producer and webmistress — this lady kicks ass! She knows how to handle men, for sure, and she's got all it takes to do it. Her aggressive sexuality immediately triggers an explosion of testosterone in any real man, and quite a few women as well...

Carmen Rivera has a wasp waist, perfectly shaped legs and adorable feet, an ass asking to be worshipped, a beautifully slutty face, and gorgedoes (ah: Well aware of this, she knows exactly what to do with those juicy loveballs to drive you crazy...

CARMEN RIVERA

—My boobs certainly are my favourite pleasure. I dream of getting even bigger, but I even can't keep my hands from them now. Sometimes I have to take care of myself not to touch or even caress them in public. Who enjoyed this feeling once, will never get enough of it...

She likes to ride horses, collect high heels, is a real party animal, and an investment adviser by profession. Vanessa Montagne has certainly made the right investments herself, and is one of the most attractive girls on the big boob-on-count today. We wanted to know more about the 180CM/55KG big model...

VANESSA MONTAGNE

Which cup size and chest measurements do we admire about you?

I'm wearing a 34 DD bra — that means 118/600 in US donor measurements. The difference is that you usually measure under the bustline and calculate your bustsize which is a 34, while donors naturally choose to talk about their circumference in cm (118 cm in my case) and add one or two more cup-sizes to make it sound more impressive.

Where were you born, where do you live today, and what was your professional education? When and how did you become an erotic star?

I was born in a small town in Germany and grew up in France and Germany. Today I live mainly in Nice in France, but also spend a lot of time in Mallorca and in Germany. Actually I'm not the typical erotic star — I don't even like the word. I studied business administration and used to work in a management position in a bank. So I lived a double life between big boobs and grey business suits for a couple of years, but then decided to concentrate on my website. By now I work on it full time, enjoy my life and steadily expand my own company. By the way my discovery for Boobs was a funny story: I was on a vacation in the US, traveled by car from town to town and watched everything I could on the road. When I arrived in Florida I remembered a sequence of „married with kids“. At finally was a journey to Florida and goes to the Boobies. In each town I watched out for a stripclub called boobies. And I found it in Panama Beach. While spending a great evening there, talking to everybody and watching the girls, a guy came to my table, and explained to me, that he is Scott photographer Peter Hall and wants to take pictures of me. I laughed at him, told him, that I heard this story before. He asked me to stay for another 30 minutes, he would be back. And back he was, with business cards and each single proof he could think about. So we decided to work together.

Do you have any hobbies?

Lots of hobbies and never enough time. Nevertheless you find me on my high in the French mountains during the winters, and at the beach or in the water during the summers. I love to

read, dream about writing a children's book and live together with my three cats. And I love to go out — dancing, meeting people or play on fetish parties. My big intention for this year is to learn paragliding.

Your favorite food, favorite drink?

I love Chinese food and seafood, but you can also entice me with a steak, medium rare and potatoes. My favorite drinks sound a bit controversial: It's milk during the day and 'Windy' Coke in the evenings.

What kind of music do you listen to?

That depends a lot of my mood and ranges from Rock to Techno, sometimes I prefer classical music, especially Vivaldi. My all time favorites are AC/DC, Tina Turner and the Shamen — especially live on stage.

Where do you spend your holidays?

It's not so much a question of where as a question of how. My idea of the ideal vacation is making about the country I choose. By then, rent a car and get going. When I've lived I stop at a motel, if I like a place I love very much. I stay for a couple of days and use the time to learn as much as possible and meet the locals. That way I already discovered a good part of the US and European countries. Now Asia is getting more and more attractive for me.

How do you feel in public, being endowed with such magnificent boobs — don't men bother you all the time? For example, would you go to a public beach in a bikini? What happens then?

It depends a lot on my way to dress. I love to go out very sexy with tight tops, short skirts and high heels. And I certainly get hit on a lot that way. If I really try to avoid that, I pick a large sweater and sneakers. But I learned that having big boobs is a good way to feel people's friendliness and tolerance. Especially women act very differently, some even try to stop their husbands staring at me. That's kind of funny to watch. A couple of days ago an elderly couple passed me. They were holding hands, talking to each other and he looked at me very interested, definitely admiring big boobs and high heels. His wife sent me a warm smile with twinkling eyes and smiled at her husband, clearly thinking that 50 years ago she had the same boobs and enjoyed life. That is the kind of peace and partnership I'm looking for for myself too. Wearing a big sweater at the beach isn't that useful "yes", but I enjoy the looks and to watch people from behind my back. A good place for a short vacation is Cap d'Hyde in France. A town of it's own — just for nudists, swingers and fetish people. It's beach-time during the days and part-time during the nights. I love especially to go to the Glamour or the Escapade. Look out between July and August, maybe you meet me. And it's not only meeting like-minded people, but also photography has all over the place. That's very relaxing for me and I try to spend at least two weeks a year there.

Describe the strengths of your website, updates, special features etc.

Living eyes! There are a couple of things that make my site unique. First of all I'm involved into my site as a real person. It's my site, my company and if something goes wrong, it's my fault. It's much more attractive for people to be able to talk to me via email or in my forums and to read my diary, than just to watch pics or videos, of a girl who said her content is a company. Interaction and activity is a big part of my concept. Not only due to the forums, but also with regular free-chat chat for members, changing courses, a big live art section with drawings and murals. I offer lots of full length videos for example the complete film collection. I even enjoy watching them myself. Since about four years I'm the only model I know of, having her own streaming video camera. That makes me independent of cam networks and studios, so to offer a quality that is five times better than the usual web-standard. In all there is a lot more to discover than my at least 2 weekly updates. Also wants to know more about the day shooting for *WIGWAGG* magazine, can read and see some pics about it in my blog or my website. At this chance I would like to thank you Peter and your team for the hourly welcome and the nice and relaxed day. It was a pleasure working with all of you.

What is your opinion about Lolo Ferrari?

Her body was perfect. I think somebody should live the way he or she enjoys. It's one thing I really regret in my life that I never met her. So much has been written about her and her personality, that it would have been interesting to find out the truth. I also think that the media spun a lot in her life, always including her, spreading rumors and all that.

How important is fetish for you? Do you like to wear latex, or do you have any other fetishes?

I've been into S&M forever. I still remember my first party. I went there with cleaning shoes, not knowing what would happen to me, but to curious to mix it. I spent a wonderful evening trying out a lot of different things. The first fetish magazine I read was *"ST" (the predecessor of Mephisto Magazine)*. And yes I love Latex – the feeling and the special smell of it. I'm adding more and more to my own wardrobe and I know how much my fans enjoy latex pictures of me. As you might have noticed I definitely have a big butt and a high heel fetish. Did you know that I bought my first pair of thin heels platform high heels from Mephisto? No kidding – I still have them.

We know that you are going to attend the Fetish Evolution Weekend at Exxxs, Easter 2006. Where else can your fans meet you this year – any other events?

I go out a lot to fetish parties. I know you and I will meet at the Fetish Evolution in Exxxs again this year. That's an event I'm really looking forward to. Several times a year I fly to Munich

To visit family and friends and go to parties like the BOF Party, the Art of Pain or the Kitty Cat Club. In France during summer I'm often at the C'Estasia. This is one of the biggest clubs in South of France. They often offer dinner and fetich parties on one evening. If you want to meet me in the US, the Fantagraph or the Girls' XXX in January in Las Vegas, or perhaps the Bancee Fox Fair are places I am to be found providing my company and meeting my fans.

You surely get a lot of fan mail, and a lot of suggestions, what to do. What would you personally like to do or about?

Yes I get a lot of mail. Email and usual mail and I try to answer everything. Sometimes that can take some time, but nothing is lost. What I would like to do? Go to work in the Caribbean - enjoy a week in rubber, play and shoot pictures and videos during the complete time.

How can your fans be nice to you, or make you a present?

Get going like you do it right now. Give me feedback, enjoy the site, talk in the forums and keep me going like you do at the moment.

Do you eventually plan to „get bigger“?
„Breasting“

What are your next projects, what can your fans look forward to?

I just bought a Sony FX1 and will soon start to offer HDV videos on my site. Once the charts will be shown in 16:9 format and with a bandwidth close to 1 MB/s. So I'm investing a lot of time and money to improve the quality of the site. I'm always proud to offer a unique first on the net.

... And now Vanessa is looking forward to meet you at her site of: www.vanessamontagne.com and get to know you personally at her forums!

larger than life.

She's probably one of the most famous big boob models. Her perfect body and slender limbs emphasize her massive chest so that she looks completely unreal – and definitely larger than life! It is a pleasure to shoot with Summer, she is lively and funny and an amazing poser. Totally flexible, she loves to bend herself and still keeps her beautiful smile. Dressing in latex comes natural to this adorable fetish goddess. She has always been into fetish and S&M, and has actually starred in more than 300 films. Summer has her new site here: www.summerc.com.
